

Dwelly Property Onboarding

Standard Operating Procedure & Data Entry Guide

Dwelly Operations Team
Excel / CSV Reference

This guide explains step-by-step how to enter existing properties, owners, tenants, agreements, and photos into the Dwelly system using Microsoft Excel or Google Sheets.

 **The Golden Key:** Every property is identified by a unique **Property Code** (e.g. GAU-0091 or BLR-0015). This single code connects the properties spreadsheet, the specifications checklist, and the photo folder together.

Part 1

Properties CSV

existing_properties_template.csv

Owner info, rent, deposit, building details, and tenant info (if occupied).

Part 2

Checklist CSV

property_specifications_template.csv

Granular room counts, amenities (yes/no), and appliance/inventory counts.

Part 3

Assets Folder

Folder: {property_code}/

Drop mou.pdf, tenancy.pdf, and property photos inside photos/.

Quick Start 4-Step Checklist:

- Open CSVs:** Open existing_properties_template.csv and property_specifications_template.csv. Keep Row 1 header unchanged.
- Fill in Rows:** Fill in one row per property in File 1, then enter the matching row in File 2 using the exact same property_code.
- Organize Photos & Scans:** Create a folder named after the property_code with mou.pdf, tenancy.pdf, and images in photos/.
- Save as CSV UTF-8:** In Excel, select **File** → **Save As** → **CSV UTF-8 (Comma delimited) (*.csv)**.

├── GAU-0091/
│   ├── mou.pdf
│   ├── tenancy.pdf
│   └── photos/
│       ├── 01_elevation.jpg
│       ├── 02_living_room.jpg
│       ├── 03_kitchen.jpg
│       ├── 04_master_bed.jpg
│       └── 05_bathroom.jpg
└── BLR-0091/
    ├── mou.pdf

```

<--- Folder named exactly as property_code

<--- Signed Owner MOU scan (.pdf)

<--- Signed Tenancy Agreement scan (.pdf, if occupied)

<--- Subfolder for all photos

<--- "01_" automatically becomes the main cover photo!

? Frequently Asked Questions (FAQ)

Q: What if I don't have the signed MOU or tenancy agreement PDF right now?

A: That is completely fine! Submit the spreadsheet. The system will automatically generate a clean placeholder document. When you receive the real scan later, you can upload it directly through the Dwelly admin web portal.

Q: Can I use 1 and 0 instead of yes and no for amenities?

A: Yes! Both yes/no and 1/0 work interchangeably.

Q: What if an owner has no PAN or Aadhaar card yet?

A: Leave those cells blank. Only Owner Name, Phone, and Email are mandatory.

Q: How do I choose which photo appears first on the website?

A: Prefix the image filenames with numbers in the photos/ folder: 01_elevation.jpg will automatically become the featured cover photo.

Q: What should I enter for society_fee if maintenance is already included in rent?

A: Enter 0.

Q: Who do I contact if the system reports an error during import?

A: Ask the tech team to run the dry-run check. The system will pinpoint the exact row number and column name needing correction.
