

Dwelly Property Onboarding

Standard Operating Procedure & Data Entry Guide

Dwelly Operations Team
Excel / CSV Reference

This guide explains step-by-step how to enter existing properties, owners, signing authorities, tenants, agreements, and photos into the Dwelly system using Microsoft Excel or Google Sheets.

The Golden Key: Every property is identified by a unique **Property Code** (e.g. GAU-0091 or BLR-0015). This single code connects the properties spreadsheet, the tenants spreadsheet, the specifications checklist, and the photo folder together.

File 1

Properties CSV

existing_properties_template.csv
Owner info, commercials, rent-share flag, and signing authority.

File 2

Tenants CSV

existing_tenants_template.csv
Primary & secondary co-tenants, Aadhaar, PAN, and tenancy terms.

File 3

Checklist CSV

property_specifications_template.csv
Granular room counts, amenities (yes/no), and appliance counts.

Part 4

Assets Folder

Folder: {property_code}/
Drop mou.pdf, poa.pdf, tenancy.pdf, and images in photos/.

⚡ Quick Start 4-Step Checklist:

- Open CSVs:** Open existing_properties_template.csv, existing_tenants_template.csv, and property_specifications_template.csv. Keep headers unchanged.
- Fill Property & Owner:** Fill in one row per property in File 1. Mark is_rent_sharing (true/false) and is_signatory_different (true/false).
- Add Occupants in File 2:** For occupied properties, enter primary and co-tenants linked by the matching property_code.
- Organize Photos & Save:** Place scans in storage/app/seed_assets/properties/{property_code}/ and save all files as **CSV UTF-8 (*.csv)**.

Part 4: Documents & Photos Folder Organization

Create a folder named after the `property_code` inside `storage/app/seed_assets/properties/`.

```
storage/app/seed_assets/properties/
├── GAU-0091/
│   ├── mou.pdf          <--- Signed Owner MOU scan (.pdf)
│   ├── poa.pdf          <--- Power of Attorney scan (.pdf, if signatory is different)
│   ├── tenancy.pdf      <--- Signed Tenancy Agreement scan (.pdf, if occupied)
│   └── photos/          <--- Subfolder for all photos
│       ├── 01_elevation.jpg <--- "01_" automatically becomes the main cover photo!
│       ├── 02_living_room.jpg

Top 8 Common Mistakes to Avoid

#	❌ What NOT to do	✅ What to do instead
1	Do not write currency symbols or commas ❌ ₹25,000 or 25,000	Type plain numeric digits only: ✅ 25000
2	Do not add country codes or spaces in phone numbers ❌ +91-98765-43210 or 98765 43210	Type 10 continuous numeric digits: ✅ 9876543210
3	Do not use DD/MM/YYYY for dates ❌ 15/01/2026 or 15-Jan-2026	Always use Year-Month-Day format: ✅ 2026-01-15
4	Do not add rows in Tenants CSV for Vacant properties ❌ Adding "N/A" or past tenants	Leave vacant properties out of the tenants CSV completely. ✅ No tenant rows for vacant properties
5	Do not invent custom city names ❌ "Guwahati City" or "Bengaluru"	Use standard registered branch cities: ✅ "Guwahati" or "Bangalore"
6	Do not delete or rename CSV column headers ❌ Renaming "rent_amount" to "Monthly Rent"	Keep Row 1 exactly as provided in the template. ✅ Unchanged header row
7	Do not hardcode agreement or MOU numbers ❌ Trying to enter custom MOU codes	Dwelly automatically generates sequential MOU - * and TNC - * numbers. ✅ System generated codes
8	Do not save as .xlsx (Excel Workbook) ❌ "properties.xlsx"	Save as CSV UTF-8 (Comma delimited) (*.csv). ✅ "properties.csv"

? Frequently Asked Questions (FAQ)

Q: What is the difference between `is_rent_sharing = true` and `false`?

A: **true** activates the *Rent share* model where Dwelly deducts a monthly management fee % (e.g. 8%). **false** activates the *Annual subscription* model with 0% fee on rent.

Q: What if I don't have the signed MOU, POA, or tenancy agreement PDF right now?

A: That is completely fine! The system automatically generates a clean digital placeholder so previews work immediately. Real scans can be uploaded later through the Dwelly admin dashboard.

Q: Can I use 1 and 0 instead of yes and no for amenities?

A: Yes! Both yes/no and 1/0 work interchangeably.

Q: How do secondary / co-tenants work?

A: In `existing_tenants_template.csv`, add another row with the same `property_code`, setting `is_primary_tenant = false` and specifying their relationship (e.g. Spouse, Son).

Q: How do I choose which photo appears first on the website?

A: Prefix the image filenames with numbers in the `photos/` folder: `01_elevation.jpg` will automatically become the featured cover photo.

Q: Who do I contact if the system reports an error during import?

A: Ask the tech team to run the dry-run check (`-d dry-run`). The system will pinpoint the exact row number and column name needing correction.
